# 93 Octane

**93 OCTANE** is fuel-injecting the fun and soul back into hard rock music. Huge guitar, driving bass, powerful drums, and scorching vocals work together like a finely-tuned performance machine. Sit back, buckle up, and enjoy the ride.

Check out 93 Octane's [official website](#). Or visit the band on [Facebook](#).

While 93 Octane had a hit with their debut album "Mirrors", they are back with a vengeance on their 2nd release, "Contagious". This album shows a writing maturity that comes with the band's solid relationship - not only with each other but with their fans. From start to finish, this album rocks hard with tracks like "Lost My Way" and the title track, but also provides excellent diversity with tracks like "Hero" and "Seasons". The writing team of Nelson & Van Taylor take you on a musical journey that is often lost with much of today's bands who strive to sound like one another. "Contagious" is rock music made for artistic expression, creative escapism and sounds only like - 93 Octane! Click on the album cover to listen to "Contagious".

Listen to "Mirrors" by clicking on the album cover below.
